

4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi (500words)

Brand	:	AXISPOT
Technology	:	US HI ID
Temperature	:	$\pm 0.4^{\circ}\text{C}$, $\pm 3.0\% \text{RH}$
Antenna Standard	:	802.11 n
No. of Antennas	:	25
Security	:	Net spot
Signal Range	:	Open source 300 meter
No of Users Supported	:	100 Users per device

Other pivotal features of ASW120 include:

Turbo RF optimization Technology:

ASW120 support Auto RF channel and power adjustment, high quality QoS, interference immune, traffic sharing etc. Preventing too many users or traffic overload from reducing the quality of service, offer users with the seamless wireless services.

Multi SSID and Security:

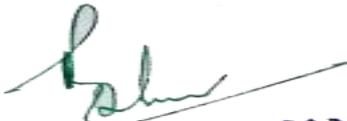

The VLAN and SSID tagging offers different access policy and user grouping. Portal authentication and blacklist features isolate staff network and guest network enhances network security.

Zero-Touch AP Deployment:

AP configuration, firmware upgrade, network monitor, all performed by unified platform results in high network scalability. The Plug-and-play feature of ASW120 improves operational efficiency and cuts down maintenance costs.

Further detailing the state-of-the-art features of ASW120, Pinaki Chatterjee, Regional Director, India & SAARC, AXILSPOT said, "ASW120 has been crafted to cater the booming demand of high-speed WLAN infrastructure in India without the hassle of extensive deployments. The access point will not only help enterprises in leveraging the advantage of uninterrupted high-speed connectivity but will also enable them in better streamlining their operations".

AXILSPOT is a new force to reckon with in the global Enterprise WLAN industry with core intellectual property rights. AXILSPOT delivers Global Quality Products with superior innovative solutions to the most critical issues we are facing today in wireless networks: how to create affordable reliability and how to overcome dramatically increasing connected needs all over the world.

AXILSPOT is dedicated to providing the most consistent and highest-speed wireless coverage and transmission solution(s) – anywhere, everywhere, all the time.

The company's solutions can be widely implemented in Large Corporate Enterprises,

Government, Education, Hospitality, Transportation, Manufacture, Financial, Healthcare and SMEs among other critical industry verticals.
